CHRIST BEFORE PILATE.

PAINTED BY MUNKACEY.

The original picture is one of the grandest paintings that has been given to the world in modern times. It covers about twenty by thirty feet of canvas, the figures all being life size. Everybody is familiar with the story. The scene is early morning in the praetorium or civil residence of the Roman governor at Jerusalem. The picture is drawn from descriptions in the New Testament of the appearance and trial of Christ before Pilate. It is there related that "when he was accused of the priests and elders, he answered nothing." "And Pilate answered and said again unto them: 'What will ye that I shall do unto him whom ye call King of the Jews?' and they cried out again, crucify him." In the centre of the picture is the figure of the Saviour, with his hands bound, erect, composed, gazing steadfastly on the face of Pilate. Around and behind him crowd the rabble of Jerusalem, some traitors, others attracted by idle curiosity, others apparently merely on killing time. In the immediate foreground is a Roman soldier holding the moh in check with the shaft of his spear. Pontius Pilate sits as the representative of Caesar on the judgment throne. He is meditating and is greatly perplexed. He knows nothing against Christ, but dare not trust the claim of the people. On the right of Pilate stands Caiphas, the chief accuser of Christ, with his arms extended toward the excited populace. The figure pressing forward in the crowd with uplifted arms is a ruffian of the lowest type. He is shouting "Crucify him! Crucify him!" On the left of Pilate sit two elders, watching the proceedings with deep interest. Between Christ and Caiphas, sitting on a bench, is a rich banker, looking on with contemptuous curiosity. Near him is a young fellow, leaning over the railing and smiling in the face of Jesus. Perched on a high stool by the side of the judgment seat and resting his head against the wall is a scribe who views the scene with an air of weary indifference. A knot of old men is seated in an angle of the room to the left of the banker. They are apparently awaiting Christ's claim that he is the promised Messiah. Conspicuously raised above the heads of the crowd is seen a young mother with a beautiful face, holding a child in her arms, and looking at Jesus with tenderness and compassion. Through the whole picture are groups of figures and faces reflecting the different emotions that animate each individual.

This picture has been on exhibition in the principal cities of Europe and is now being exhibited in America. It has been viewed by millions of people and has created more sensation throughout the entire civilized world than any other painting ever produced. In the city of New York it was on exhibition several months and was seen by hundreds of thousands of people. It was recently sold to John Winnaker, of Philadelphia, for \$120,000 in cash.
